

# 23rd Jyväskylä Summer School

## Using Language to Teach Science: Researching Classroom communication and Developing Dialogical Approaches

Ametller, Jaume ([jaume.ametller@udg.edu](mailto:jaume.ametller@udg.edu))

Universitat de Girona, University of Leeds

# Outline of the course

23rd Jyväskylä  
Summer School

Science as  
Language

Learning the  
language of  
Science

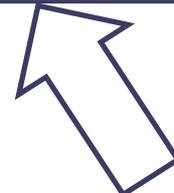

Language  
and thinking

Language and  
learning Science

Dialogic  
approach

Analysing

Planning

# The roles of language in teaching and learning Science

23rd Jyväskylä  
Summer School

Language is a fundamental part of the activity of teaching and learning (to many the most important element).

Language plays four main roles in this activity:

- a) It provides a lexico-grammatical realisation of the meaning being constructed
- b) It provides a series of scientific genres
- c) It shapes the interactions among participants (general)
- d) It shapes the process of learning science

- **a and b** refer to **what** is being taught-learnt
- **c and d** refer to **how** it is being taught-learnt

# **A socio-cultural approach: communicative approaches**

# Language and Thinking

# Language and Thinking Communicative approaches

23rd Jyväskylä  
Summer School

To develop a way of analysing teacher-pupil interactions in science classrooms focussing on classroom talk.

To explore implications of this analysis for planning and implementing teaching

**'Meaning making in Secondary Science Classrooms'**

Eduardo Mortimer and Phil Scott

Open University Press, 2003

## Language and Thinking Communicative approaches

23rd Jyväskylä  
Summer School

**Teacher:** Do you remember the electric bell?

**Students:** Yes! [*in chorus*]

**Teacher:** OK! Did any of you notice, did any of you actually hold onto the bell after it had...been working? What did you notice?

**Suzanne:** Vibration

**Teacher:** Well, the arm vibrated, yes. Sound. What else did you notice?

**Tom:** It was loud.

**Teacher:** That's not quite what I'm getting at.

## Language and Thinking Communicative approaches

23rd Jyväskylä  
Summer School

**Teacher:** Remember the bell. There's the bell [*holding up a bell in front of the class*]. You did the experiment. If you held onto this bit here where the wires were [*indicating*], did you notice anything there?

**Jason:** There were sparks there.

**Teacher:** Heat, did you notice some heat?

**Jason:** There were sparks from there.

**Teacher:** There were?

**Jason:** Sparks.

**Teacher:** There were some sparks, yes. Let's just ignore the sparks a minute...some heat. There was a little bit of heat there with that one.

## **WORK WITH A PARTNER**

- Read through the transcript
- Look at what the teacher says: how would you describe their role?
- Look at what the pupils say: how would you describe their role?

# Language and Thinking

## Communicative approaches – Patterns of talk

23rd Jyväskylä  
Summer School

**Teacher:** Do you remember the electric bell?

[INITIATION]

**Students:** Yes!

[RESPONSE]

**Teacher:** OK!

[EVALUATION]

**Teacher:** Did any of you actually hold onto the bell after it had...been working? What did you notice?

[INITIATION]

**Suzanne:** Vibration

[RESPONSE]

**Teacher:** Well, the arm vibrated, yes. Sound.

[EVALUATION]

**Teacher:** What else did you notice?

[INITIATION]

**Tom:** It was loud.

[RESPONSE]

**Teacher:** That's not quite what I'm getting at

[EVALUATION]

# Language and Thinking

## Communicative approaches – Patterns of talk

23rd Jyväskylä  
Summer School

The **I-R-E** pattern

**I** stands for **initiation**: teacher asks a question

**R** stands for **response**: pupil responds

**E** stands for **evaluation**: teacher evaluates

This is a *very* common pattern of classroom talk...which occurs in patterns of 3 (or triads)

# Language and Thinking

## Communicative approaches

23rd Jyväskylä  
Summer School

### Communicative approaches

	Interactive	Non-interactive
Focus on science view (Authoritative)	<b>Presentation</b> <b>Q&amp;A</b>	<b>Presentation</b> <b>'lecture'</b>
Open to different points of view (Dialogic)	<b>Probing</b> <b>Elaborating</b> <b>Prompting</b>	<b>Review</b>

## Language and Thinking Communicative approaches

23rd Jyväskylä  
Summer School

1. **Teacher:** OK Jack, what happens to that carrot seed?
2. **Jack:** First it's a seed...
3. **Teacher:** It is. Shall we say it's in the ground?
4. **Jack:** Yeah it is. It needs water and a bit of sunshine.
5. **Teacher:** Yes. What happens?
6. **Jack:** It germinates.
7. **Teacher:** (Nods). What scientific words did Jack use?
8. **Hope:** Germination
9. **Teacher:** Good! (writes 'germination' on board) What happens next?
10. **Jack:** Stem starts growing

## Language and Thinking Communicative approaches

23rd Jyväskylä  
Summer School

11. **Teacher:** Ok. What else?
12. **Jack:** It starts growing more.
13. **Teacher:** Ok, it's growing. We have the roots and a stem (draws on board). What else? What's missing from the plant?
14. **Callum:** Don't know.
15. **Jack:** A carrot?
16. **Teacher:** Not yet. What's missing?
17. **Shannon:** A plant?
18. **Teacher:** We've already got the plant!
19. **Nathan:** A flower?
20. **Teacher:** Yes! A flower!

## Language and Thinking Communicative approaches

23rd Jyväskylä  
Summer School

**Initiation: Teacher:** OK Jack, what happens to that carrot seed?

**Response: Jack:** First it's a seed...

**Evaluation: Teacher:** It is.

**Initiation:** Shall we say it's in the ground?

**Response: Jack:** Yeah it is. It needs water and a bit of sunshine.

**Evaluation: Teacher:** Yes

**Initiation:** What happens?

**Response: Jack:** It germinates.

**Evaluation: Teacher:** (Nods).

**Initiation:** What scientific words did Jack use?

***PLACE IN CORRECT ORDER: starting with the  
smallest number***

**1.65 1.4 1.2**  
**1.9 1.25**

## Language and Thinking Communicative approaches

23rd Jyväskylä  
Summer School

*Courtney orders the numbers:*

**1.2 1.4 1.9 1.25 1.65**

*...the computer screen flashes up 'incorrect'.*

**Teacher:** Not quite right Courtney, although I can see why you chose this order. Can anyone see which numbers Courtney has mixed up?

**Liam:** I can! 1.9 should be the biggest!

**Teacher:** Who thinks Liam is right? Hands up if you agree (*a few children raise their hands*). So is there anyone who doesn't think he is right? Lewis what do you think?

## Language and Thinking Communicative approaches

23rd Jyväskylä  
Summer School

**Lewis:** 1.65 has to be the biggest because 65 is bigger than 9.

**Liam:** It doesn't even say 65 though!

**Teacher:** Hang on a minute Liam, see what Lewis thinks. So you think 1.65 is the biggest?

**Lewis:** Er, yes...because it looks the biggest number but...but it can't be right because it's (*the computer*) saying it's wrong.

**Teacher:** Ok, let's see who else has an idea. Courtney do you think you know now?

## Language and Thinking Communicative approaches

23rd Jyväskylä  
Summer School

**Courtney:** Yes...that 1.25 should go near 1.2 because...they both start with 1.2 so that means they are near each other.

**Teacher:** Do we agree? (*class shout YES!*) Can anyone explain it a bit better? David?

**David:** That 2 can have a 0 after it to make it like 20, so could the 4 and the 9. Then you can order them easily because you know it goes 20, then 25, then 40, then 65, then 90...and then you have all the numbers in the right order.

**Teacher:** That's a very interesting way of explaining it David. Let's see if he's right...

## WORK WITH A PARTNER

- Read through the transcript
- Look at what the teacher says: how would you describe their role?
- Look at what the pupils say: how would you describe their role?

The **I-R-P-R-P-R-P-** pattern

**I** stands for **initiation**: teacher asks a question

**R** stands for **response**: pupil responds

**P** stands for **prompt**: teacher prompts

This pattern of classroom discourse involves *chains* of interaction to develop a

**dialogic communicative approach.**

# Language and Thinking Communicative approaches

23rd Jyväskylä  
Summer School

What skills and knowledge does the teacher need to be able to promote this kind of DIALOGIC TALK in their classroom?

Make a list!

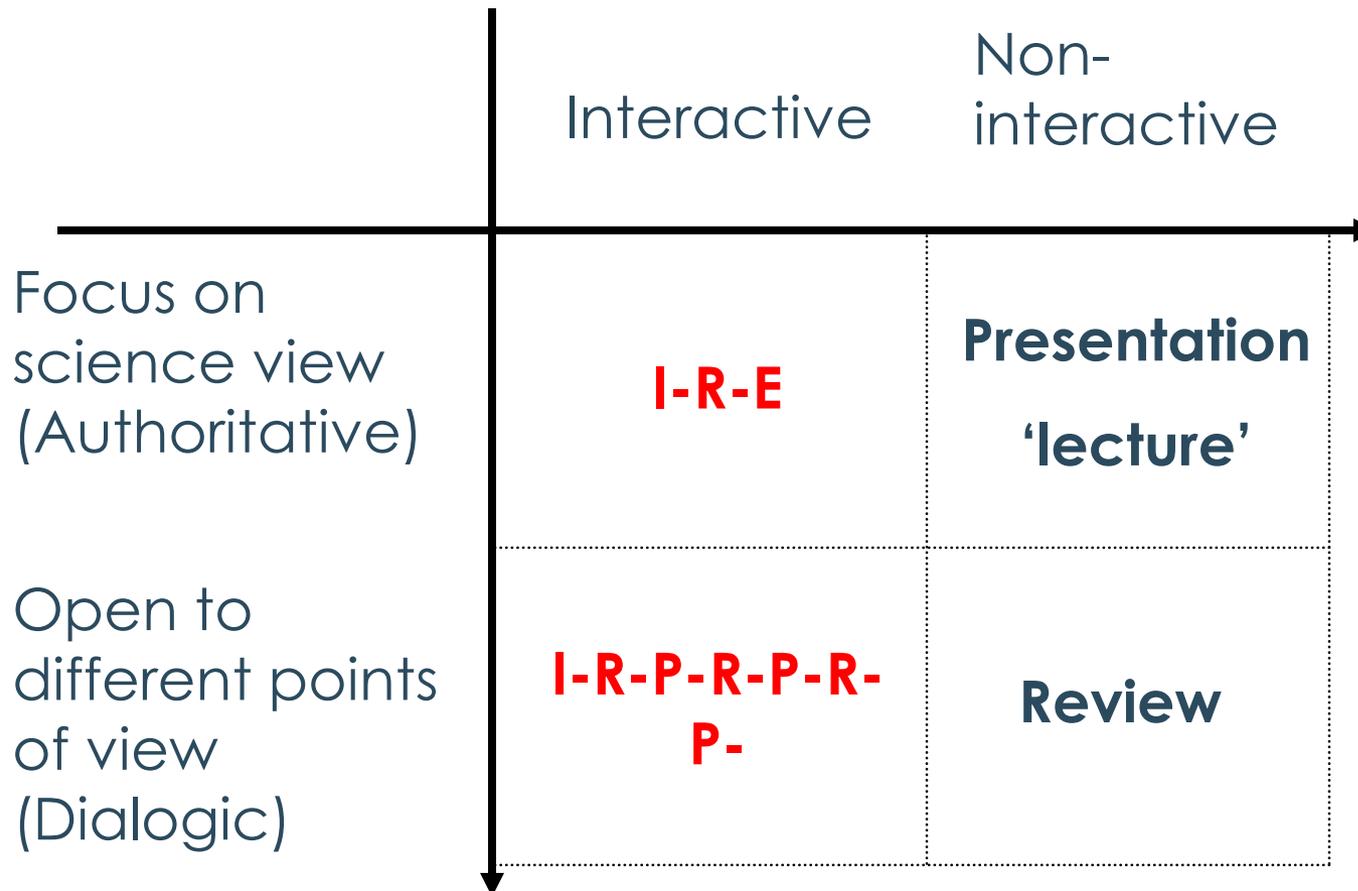

# Language and Thinking

## Communicative approaches

Summer School

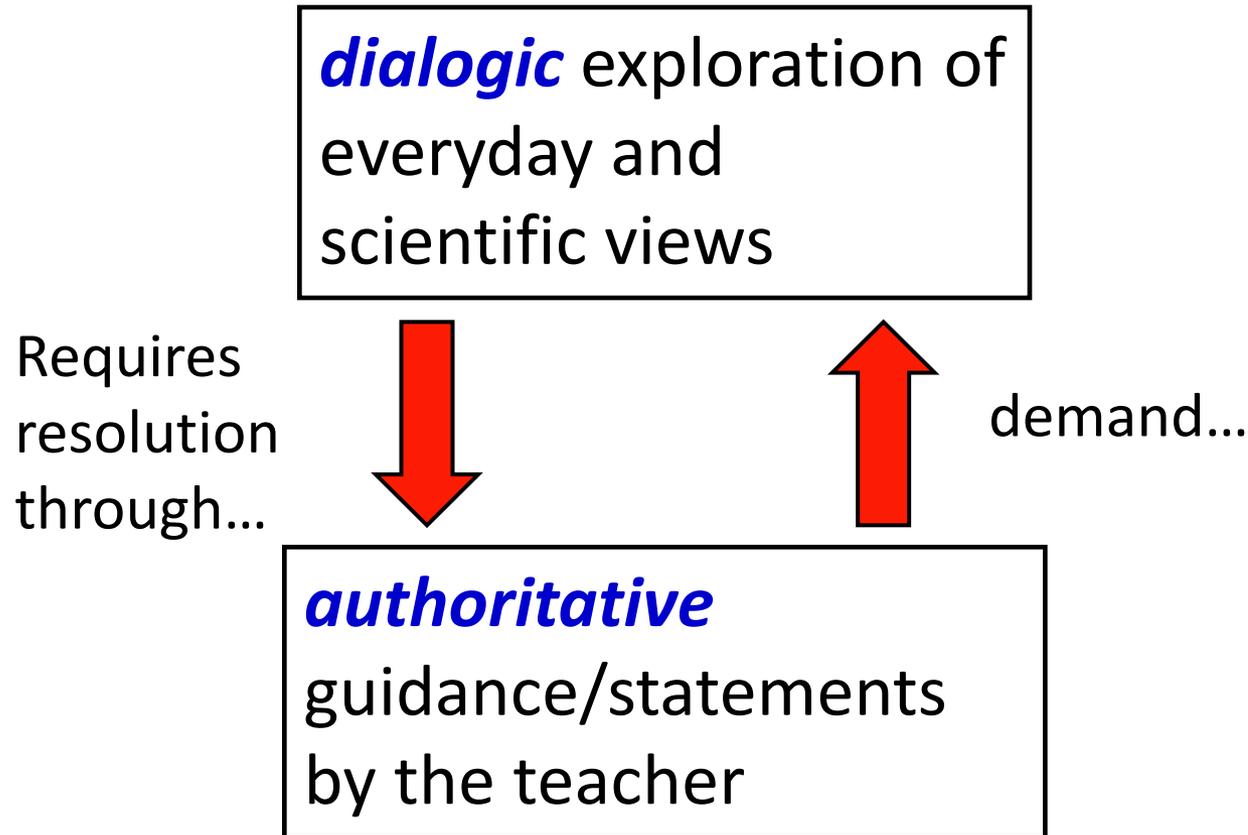

## Communicative approaches

# Language and Thinking

## Communicative approaches

23rd Jyväskylä  
Summer School

...each approach contains the 'seed' of the other

Scott, Aguiar, Mortimer, 2006

# Language and Thinking

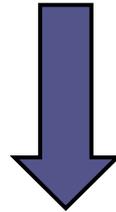

## Communicative approaches

23rd Jyväskylä  
Summer School

***dialogic*** exploration of  
everyday and  
scientific views

Turning  
point

***authoritative***  
guidance/statements  
by the teacher

Scott and Ametller, 2007

# Language and Thinking Communicative approaches

23rd Jyväskylä  
Summer School

*Negotiating ideas across two planes*

# Language and Thinking

## Communicative approaches

23rd Jyväskylä  
Summer School

The social plane is the place where it makes sense to talk about discourse and communicative approaches.

From the point of view of Dialogic Education, the discourse follows a rhythm of opening and closing that corresponds to internalisation cycles (until **IDEA'**  $\approx$  **IDEA**)

# Language and Thinking

## Communicative approaches

23rd Jyväskylä  
Summer School

The social plane is the place where it makes sense to talk about discourse and communicative approaches.

From the point of view of Dialogic Education, the discourse follows a rhythm of opening and closing that corresponds to internalisation cycles (until **IDEA'**  $\approx$  **IDEA**)

...*dialogic* exploration by students

demands...

...*authoritative* statements by the teacher

# Language and Thinking

## Communicative approaches

23rd Jyväskylä  
Summer School

The social plane is the place where it makes sense to talk about discourse and communicative approaches.

From the point of view of Dialogic Education, the discourse follows a rhythm of opening and closing that corresponds to internalisation cycles (until **IDEA'**  $\approx$  **IDEA**)

...*dialogic* exploration of everyday and scientific views

Requires resolution through...

...*authoritative* guidance by the teacher

...each approach contains the 'seed' of the other

So which  
**COMMUNICATIVE**  
**APPROACH??**  
is the  
**BEST?**

# Language and Thinking Communicative approaches

23rd Jyväskylä  
Summer School

...depends on the purpose

Getting the idea across..

Exploring pupils' ideas

Pierre Milon / Sony Pictures Classics

**Authoritative approach**

**Dialogic approach**

# Language and Thinking

## Communicative approaches

23rd Jyväskylä  
Summer School

- All the communicative approaches are needed
- It is essential to have some opportunities for dialogue, but authoritative episodes are also required
- The quality of dialogue is more important than the time devoted to it (interanimation of ideas)
- Teachers know and use all communicative approaches but being conscious of them and planning when to use them makes a huge difference..
