

Winter ecology course 15.-17.2.2015 Konnevesi Research Station
Population dynamics

	Sunday	Monday	Tuesday	Wed	Thu	Fri
9:00		Population dynamics, general: MS	Subarctic vole cycles: HH	Fear, individuals, populations: workshop		
11:30			Insect population dynamics: TK			
			Arctic fox: HH			
Lunch						
12:30-		Population dynamics of vendace: TM	Vole cycles and climate: OH			
14:30			House mouse plagues in Australia: CD			
Coffee						
15:00-		Grouse and game dynamics: PH	Vole cycles and food: OH			
17:00	16:00 -Population cycles of voles: JS					
Dinner						
	Vole cycles and predation: JS	Lemmings: HH				

JS: Janne Sundell, MS: Matan Shenhav, TM: Timo Marjomäki, PH: Pekka Helle, HH: Heikki Henttonen, TK: Tero Klemola, OH: Otso Huitu, CD: Chris Dickman
